CAREER OBJECTIVE

Highly motivated and career focused final-year MSc student in Cyber Forensics and Information Security, with a strong foundation in forensic science from a BSc background. Enthusiastic about cybersecurity, digital forensics, and information protection, with a keen interest in applying technical skills to real-world challenges. I'm looking for internship or entry-level opportunities where I can apply what I've learned, keep growing my skills, and contribute immensely around my expertise and learn while doing. I'm a dependable team player who's always hungry to learn, educate, improve, and help strengthen the organization's security and integrity.

PROJECT —————

Final Year Mini Project on the topic "**Cyber Victimization: A Study on Deepfake and Effects of Artificial intelligence**". This research project was primarily focused on spreading awareness about cyber-crimes based on deepfakes. As the crime is currently widely done and people have less awareness about how to differentiate between a deepfake and an original content, I conducted my final year project on this topic along with my Co-author Mohammed Marzuk T.M – June 2024 to March 2024

PERSONAL PROFILE

- ❖ Gender: Male
- ❖ Marital Status: Single
